

MARCH 2024

LATEST COLLECTION HAS LANDED IN CHICAGO

In the heart of the River North district, a go-to destination for art and design lovers, the **Minotti Chicago by Orange Skin** flagship store welcomes the furnishing pieces that are the protagonists of the brand's latest collections.

At the entrance, also visible from the windows, the **Dylan** seating system takes centre stage, presented with elegant black leather upholstery and set alongside the **Sally** armchairs in white fabric and the **Brady** lounge coffee table with Nero Marquina marble top - all designed by Rodolfo Dordoni.

The clever interplay of contrasts between light and dark tones that characterises the designs can be found in various settings, with clear references to fine tailoring. The proposals slot harmoniously into a showroom with a contemporary, industrial feel, where concrete floors alternate with dark wooden walls and grey false ceilings.

The sober atmosphere of the entire space is enhanced by the warm natural light filtering through the windows, and by the dramatic wood-panelled fireplace, the backdrop to a living area with the sinuous forms of the **Raphael** family of seats, creating the feeling of cosy conviviality.

"Embracing the showroom as a canvas for innovation, the latest collection beautifully intertwines design and functionality. Our collaboration with Minotti continues to reflect our mutual commitment to elevating aesthetic dialogue, capturing the essence of design and stylistic evolution beyond commerce" say **Graunk Enzenberger** and **Obi Nwazota**, owners of Minotti Chicago.

A unique design venue in the city known for introducing modern architecture to the United States, which offers an immersive experience in the Minotti lifestyle.
