

Minotti

DECEMBER 2023

2023 COLLECTION JUST LANDED IN SHANGHAI

The **Minotti Shanghai** by **Domus Tiandi** flagship store, with an original circular layout, welcomes the **2023 Collection** in an atmosphere of great visual impact.

The interior design by **Minotti Studio** has been carefully designed down to the tiniest detail and every single element helps fully convey the Minotti values and lifestyle.

The heart of the space is the striking spiral metal staircase that connects the ground floor to the one above, in a succession of elegant living, dining and night areas.

The brand's latest proposals include the **Dylan Small** seating system designed by Rodolfo Dordoni, set in a living area on the ground floor, together with the soft curves of the **Raphael** family of seats by GamFratesi.

The same shapes of the **Dylan** modular system, rigorous yet full of detail, can also be found in another living area on the same level, this time accompanied by the **Torii Bold** seats by Nendo.

The alternation of contrasting tones, such as black and white, also adds character to a living area on the upper floor, which houses the latest curved elements of the **Goodman** seating system, designed by Rodolfo Dordoni, recreating an atmosphere dedicated to home entertaining.

A space featuring a contemporary character waiting to be discovered, and capable of offering the right inspiration to a clientele seeking Made in Italy quality and design.
