

Minotti

JANUARY 2015

ROTTERDAM, "EXCELLENT" HOME AND LIFESTYLE FAIR

The 2nd "Excellent" Home and Lifestyle exhibition took place at the Ahoy conference center in Rotterdam and showcased some of the most exclusive new trends in contemporary home living.

The project by interior designer Stephan Versteeg for the exhibition space of the two concept stores – Minotti Concept Store by Noort Interieur and Minotti Concept Store by Van der Donk – was voted the best project at the exhibition. The concept was particularly innovative, featured all the comforts and high tech because of its sophisticated home automation system.

The spacious living area featured various furnishing proposals from the Minotti collection: a corner composition for the White seating system with Owens armchairs, Denny ottoman and Neto coffee table, a Powell sofa with Aston armchairs and a Dalton bookcase as well as a Hamilton seating system with Coley-Soft armchair, Huber and Still coffee tables and Villon ottoman.

The premier exhibition was an opportunity for the Minotti Concept Store by Noort Interieur and Minotti Concept Store by Van der Donk to display some leading pieces from the company's collection to a discerning public that could appreciate the sophisticated design and superior quality that have always been Minotti's signature features.
