

NOVEMBER 2019

## WEST AND LAWSON MONOGRAPHIC CATALOGUES

From November onwards, the monographic catalogues dedicated to the **West** and **Lawson** seating systems designed by **Rodolfo Dordoni** will be available.

The **West** seating system, which perfectly combines the Minotti know-how in the field of design and the brand's sartorial savoir-faire, suggests solutions with a strong visual impact offering new takes on corner configurations with leather backs and unexpected terminal elements: more traditional versions alternate with chairs incorporating chaise-longues in a pentagonal or hexagonal layout, creating intimate, welcoming living areas.

**Lawson**, with its fluid forms and well-balanced, soft volumes, explores different types of seats - from the sofa to the lounge armchair and the armchair for relaxation - with innovative solutions designed to feature in both residential and hospitality environments.

The seating systems are showcased in both volumes by means of an extensive photogallery geared to promote their extreme versatility in contexts of different styles, and technical sections with drawings and detailed information about the products and materials, to complement the design.
