

# Minotti

NOVEMBER 2020

## THE 2020 COLLECTION GOES TO MUNICH

A rich selection of the new indoor products in the **2020 Collection** debuts in Munich in the flagship store **Minotti München by Egetemeier Wohnkultur**.

Grey concrete floors, dark wooden panelling, alternated by walls covered in marble, and soft grey linen curtains bring to life an elegant space with refined settings that frame the most representative indoor products of 2020, accompanied by some of the bestsellers and distinctive pieces from the most recent Minotti collections.

Once inside, visitors are welcomed into an intimate environment, bathed in the natural light that filters through the six large floor-to-ceiling windows, which look on to the Oskar-von-Miller Ring, in the heart of the city. Carefully positioned next to the fireplace to recreate the feel of the Minotti ideal of home, we find the **Torii** armchair and inclined sofa, enhanced by a top in Calacatta marble, designed by Nendo, matched with the **Alps** rug, handmade using the finest tailoring methods employed by upscale furriers, its soft pile endowing the environment with an exceptionally intimate vibe.

The two adjacent areas host the new modular seating systems by Rodolfo Dordoni. On one side there is **Connery**, in the version with square chaise-longue, featured in combination with the **Daiki** armchairs, and the **Boteco** coffee table and sideboard, designed by Marcio Kogan / studio mk27. On the other side, the rigorous geometric volumes, and precise, meticulous sartorial craftsmanship of **Blazer** is matched with the **Fynn Saddle-Hide** armchairs by GamFratesi, the **Linha** coffee table designed by Marcio Kogan / studio mk27 and Dordoni's **Quincy Chevron** ottoman.

A last setting proposes a **Linha Dining** table, with Orobico Grey marble top of no less than 3 metres in length, accompanied by the **Fynn Saddle-Hide** dining chairs, combining formal elegance and compact proportions for a lunch area with the spotlight on comfort.

The refined autumnal palette of the furnishings, spanning from corten to different shades of grey and a sophisticated two-tone effect in the shades of black and white, evokes the colours of the showroom's surroundings, visible from the large windows that run all along the facade, in a harmonious dialogue between in and out.

Owners Petra Egetemeier and Stefan Rollwagen and the Minotti München team await you, by appointment, to introduce you to the new products of the 2020 Collection, and to experience the quality and elegance of the Minotti furnishings first-hand.
