

NOVEMBER 2020

2020 COLLECTION CONSUMER CATALOGUE

The new consumer catalogue of the **2020 Collection**, coordinated by Rodolfo Dordoni with Minotti Studio, will be available from December at the Minotti flagship stores and authorised dealers.

The catalogue offers a rich selection of photographs dedicated to the new indoor and outdoor products in the collection, reflecting a contemporary modernist taste related to the company's sartorial craftsmanship, of the type found in haute couture. A project that embodies the perfect combination of aesthetics, design and couture, hosting the proposals of esteemed designers with diverse cultural backgrounds - **Rodolfo Dordoni, Nendo, Marcio Kogan / studio mk27, GamFratesi and Christophe Delcourt** - to form a veritable "Minotti project".

The catalogue dedicates ample space to the three new seating systems - **Connery** and **Blazer** by Rodolfo Dordoni and **Torii**, by Nendo - the **Mattia**, **Fynn** and **Daiki** seats designed respectively by Dordoni, GamFratesi and Marcio Kogan / studio mk27, the **Linha Dining** table, also by the Brazilian architect, and the wide range of small furniture and accessories.

The new proposals for the outdoor space, conceived as an extension of the indoor living area, where the boundaries between indoors and outdoors cease to exist, are presented in the final section of the catalogue: these most notably include the **Sunray** seating system designed by Dordoni, the **Fynn Outdoor** seats by GamFratesi and the **Daiki Outdoor** seats by Marcio Kogan / studio mk27.

The story of the 2020 Collection told in the catalogue is that of a harmonious project with a strong international appeal, though entirely Italian in its imprint, which outlines the features of a new ideal of contemporary living.
