

MARCH 2022

## MINOTTI MADRID PRESENTS THE 2021 COLLECTION IN A RENEWED SPACE

The space, spanning a surface area of 300 sqm. on two levels, showcases the classic-contemporary style of Minotti with a selection of furniture from the **2021 Collection**, harmoniously mixed with some of the company's bestsellers and iconic favourites: "The setting hosting the new collection highlights the dialogue between the architecture of the interiors and the design of the furniture, referencing their textures and materials" says **Diego Rodríguez**.

On the ground floor, the space presents two different living areas, hosting the **Alexander** and **Roger** seating systems by **Rodolfo Dordoni**. Roger, one of the most distinguishing designs of the 2021 Collection, is shown in the exclusive back-to-back version, in a particularly welcoming and striking setting featuring a charming steel fireplace.

For the night area, a sophisticated master bedroom proposes the elegant **Brasilia Bed** by **Marcio Kogan / studio mk27** and the **Torii** seats by **Nendo**, which both play around with soft volumes and simple shapes, distinctive feature of the projects by the Brazilian architect and the Japanese designer.

The protagonists of the floor below, set in an executive office environment, are the furniture of the **Studio Collection**, launched last year by Minotti to offer a new, elegant interpretation of the professional spaces in the office as well as at home: the **Linha Studio** writing desk and the **Daiki Studio** seats, along with the **Brasilia** and **Superquadra** furnishings, all by **Marcio Kogan / studio mk27**.

The new look of **Minotti Madrid** reflects a bold design-oriented approach, with neutral, elegant shades, characterised by discreet decorative elements that masterfully create a particularly inspiring backdrop for the Minotti collection.

With this space, the company confirms its status as a reference point for all the design enthusiasts and professionals in the Spanish capital, consolidating its presence in a historical market for the Minotti brand.
