

AUGUST 2022

NEWS FROM MINOTTI MANILA

The **Minotti Manila by Living Innovations** flagship store welcomes the furnishing pieces of the latest collections within elegant and refined settings designed by **Minotti Studio**, the creative heart of the company.

Large windows brighten up the space where wood panelling, walls in warm shades of Grey, and floor-to-ceiling partitions set the scene for the brand's indoor and outdoor projects.

A big space is dedicated to the furnishing pieces by **Marcio Kogan / studio mk27** in perfect harmony with the chestnut wood of the walls: the **Daiki Studio** armchair with the **Linha Studio** desk, and the **Brasilia** seating system together with the **Belt** armchairs by **Rodolfo Dordoni** create an executive office with bold tones.

Overlooking the windows, the living and dining areas with their more subdued and luminous palettes unwind: the protagonists are the **Roger** and **Connery** seating systems and the **Marvin** table with **Belt** seats, all designed by **Rodolfo Dordoni**.

The area dedicated to outdoor furnishing pieces hosts the **Patio** seating system by **GamFratesi** with the **Torii Nest Outdoor** armchairs by **Nendo** and the **Stony** coffee tables by **Rodolfo Dordoni**, in a mix and match of colours and materials.

A dynamic showroom layout, thanks to a skilful mix of perspectives between the different areas of the store, within a space that reflects the creativity of the brand and conveys the uniqueness of Minotti's furnishing pieces with sophisticated flair.
