AUTUMN COLOURS AT THE MINOTTI LONDON BY EDC FLAGSHIP STORE

New elegant settings and a palette of autumn-inspired colours breathes life into the **Minotti London by EDC** flagship store.

Situated in the elegant Fitzrovia area, the showroom encompasses two floors connected by a dramatic brass, glass and concrete staircase. The space that forms a backdrop to the furnishing pieces is characterised by an original interpretation of materials, shapes and colours emblematic of Minotti style. These include grey concrete floors, marble-cladding and dark wood and plaster walls, and fireplaces which the living spaces are developed around. Against this backdrop, seating systems such as **Horizonte** by **Marcio Kogan / studio mk27** and **Goodman** by **Rodolfo Dordoni** (in beige and ecru fabric respectively) take centre stage.

Autumn shades can be found in the **Twiggy** seating system designed by **Rodolfo Dordoni** (presented in cognac nubuck) and in the **Sendai** armchairs designed by **Inoda+Sveje** (in malachite green and olive green).

Minotti London by EDC yet again confirms itself as a key destination where the Londoner design community can come together for ideas and design inspiration.
