

## MARCH 2023 NEWS FROM AHMEDABAD

An irresistible destination for the Indian design community, the **Minotti Ahmedabad** showroom stages the **2022 Collection**, a true exploration of new stylistic melting pots. Coordinated by Rodolfo Dordoni with Minotti Studio, the 2022 Collection features new proposals with clear references to different design cultures, creating a sort of new punctuation within the spaces designed by Minotti.

Visitors are welcomed at the entrance of the flagship store by the light lines of the **Horizonte** seating system, together with the **Daiki** bergère, both designed by **Marcio Kogan / studio mk27**, and the **Yoko** armchairs, by **Inoda+Sveje**.

The tale told in the unprecedented and refined Nordic Japanisme of the **Inoda+Sveje** duo continues in the adjacent area, where the **Sendai** armchairs and the **Lars** sofa blend in perfectly, alongside the contemporary look of the **Oliver Lounge** table by **Rodolfo Dordoni**.

An elegant presentation that enhances the cosmopolitan sensibility of the Minotti collections and accurately conveys the brand's values, supporting the narration of the most recent proposals in a renewed immersive journey.
