

## APRIL 2023 NEWS FROM MANILA

Satin-finished steel walls mark the rhythm of the space, alternating with elegant wooden panelling in a skilful interplay of materials designed to evoke powerful feelings.

Visitors are welcomed by the shapes of the **Lars** sofa, designed by the **Inoda+Sveje** duo: a soft, asymmetrical curved volume placed at the entrance of the flagship store and accompanied by the **Sendai** swivel armchair, also by the same Japanese-Danish designer duo, and the **Louver** coffee tables by **Rodolfo Dordoni**.

The journey to discover the 2022 Collection continues. The protagonists of the living areas are the **Goodman** seating system by Rodolfo Dordoni and **Horizonte**, designed by **Marcio Kogan / studio mk27**, complemented respectively by the **Sendai** and **Twiggy** armchairs.

Finally, an area of the store is entirely dedicated to the outdoors: the indoor Yoko seat evolves, welcoming **Yoko Cord Outdoor**, the family of seats for the outdoor, presented here around the timeless design of the **Bellagio Outdoor** table designed by Gordon Guillaumier.

A harmonious succession of proposals, curated by **Minotti Studio**, which carefully conveys the brand's values while fitting elegantly into the architectural surroundings.
