2023 COLLECTION JUST LANDED IN HONG KONG

The flagship store **Minotti Hong Kong by Andante** – conceived as an art gallery, with a mix of works, photographs and classical background music to enhance the essence of the brand – welcomes the furnishing pieces of the **2023 Collection**.

In a harmonious balance between modernity and tradition, the latest proposals are framed by honey-coloured oak panelling, alternating with concrete walls and white plaster ceilings, in a succession of living, dining and night areas designed by **Minotti Studio**.

The innovations showcased include the sinuous curves of the **Raphael** family of seats by GamFratesi together with the rigorous yet enveloping lines of the **Dylan** seating system; designed by Rodolfo Dordoni, its distinctive features are synthesised in the **Dylan Small** version, set in another living area and complemented by the sculptural **Sally** swivel armchairs. The protagonist of the adjacent dining area is the **Brady** table, designed by Rodolfo Dordoni.

The intimate and cosy night area is furnished with the **Horizonte Bed**, the natural evolution of the Horizonte seating system designed by Marcio Kogan / studio mk27, which enlivens the space with its architectural trait and exquisite craftsmanship, inspired by the world of haute couture.

A journey through the eclectic charm of the gateway to the Orient, offering ever-changing sensations in the same original combination of art and design that has always accompanied the collaboration between Minotti and its partner Andante.
