

Struttura: monoscocca, in legno multistrati con molleggio garantito da cinghie elastiche ad alta componente di caucciù. Preparazione della struttura, in poliuretano espanso ad alta resilienza composto da numerosi strati di quote differenziate termosensibili.

Tutta la struttura è rivestita con trapuntino di fibra termolegata traspirante accoppiata con tela di cotone bianca anallergica che conferisce morbidezza.

Cuscinatura: imbottitura cuscino seduta in piuma d'oca canalizzata ad alto spessore per conferire grande sofficità al cuscino. Inserto in poliuretano espanso ad alta resilienza, rivestito nella parte superiore con materiale poliuretano "termosensibile".

Cuscini schienale totalmente imbottiti in piuma d'oca canalizzata.

Braccioli rivestiti sul lato interno con trapuntino in piuma d'oca canalizzata che conferisce morbidezza, dando al bracciolo l'aspetto di un cuscino.

La confezione del cuscino di seduta e della fodera vengono realizzati con una leggera e moderna trapuntatura.

Sfoderabilità: il rivestimento è completamente sfoderabile nella versione in tessuto smontando la base perimetrale portante allentando le apposite manopole. Nella versione in pelle il rivestimento è fisso solo per la struttura, mentre è sfoderabile per i cuscini schienale e seduta.

Base: telaio in metallo a sezione rettangolare 45x20 mm, verniciato color Peltro con finitura lucida anti-touch.

Appoggio a terra tramite piedini in plastica di colore nero (Ø 60 H60 mm) muniti di feltro protettivo.

Structure: one-piece, plywood with high-rubber-content elastic webbing to ensure springy suspension.

The structure, is made of many layers of variable-density, temperature-sensitive, high-resilience polyurethane foam. The entire structure has a breathable heat-bonded quilted fiber cover laminated to a white hypoallergenic cotton fabric which lends softness.

Cushions: thick seat cushion padding in channeled goose down, for increased cushion softness.

Resilient polyurethane foam insert, covered - in the upper part - with "thermosensitive" polyurethane material.

Backrest cushions fully padded with channeled goose down.

Armrests covered on internal side with quilted channeled goose down, which results in enhanced softness, thereby making the armrests look like cushions.

The seat cushion and cover are made with a light, modern quilt.

Covers: fully removable in the fabric version by taking the external supporting base apart, loosening the knobs. Leather cover of the structure non-removable; removable backrest and seat cushion covers.

Base: metal frame rectangular section, 45x20 mm varnished Pewter colour with polished, anti-touch finish.

Black plastic feet (Ø 60 H60 mm) with protective felt pads.

Gestell: Einteiliges Gestell aus Sperrholz mit Federung durch elastische Riemen mit hohem Kautschukanteil. Aufbereitung der Struktur mit hochdichtem Polyurethanschaum, bestehend aus zahlreichen unterschiedlich dick geschäumten, thermosensiblen Schichten.

Die gesamte Struktur ist mit einem Steppbezug überzogen, aus atmungsaktiver, thermofixierter Faser, kombiniert mit antiallergischem, weißem Baumwolltuch, das Weichheit verleiht.

Kissen: Dickes Sitzkissenpolster aus kanalisierten Gänsedaunen, durch die das Kissen sehr locker wirkt. Einsatz aus hoch kerzbähem, geschäumtem Polyurethan und Oberseitenpolsterung mit "wärmesensiblen" Polyurethanmaterial.

Komplett mit kanalisierten Gänsedaunen gefüllte Rückenlehnenkissen.

Armlehne an der Innenseite mit einem Steppbezug aus kanalisierten Gänsedaunen bezogene Armlehnen, die weich und locker wirken, was der Armlehne das Aussehen eines Kissens verleiht.

Das Sitzkissen und der Bezug werden mit einer leichten, modernen Steppdecke bezogen.

Abziehbarkeit: Nur der Stoffbezug ist abziehbar. Hierzu wird das umlaufende tragende Grundgestell nach vorheriger Lockerung der Kugelgriffe demontiert. Fester Lederbezug nur für das Gestell, die Kissen mit Lederbezug sind abziehbar.

Grundgestell: aus einem Metallrahmen mit rechteckigem Schnitt 45x20 mm und glänzendem zinnfarbigem Finish mit Anti-Fingerprint-Beschichtung.

Die Auflage auf dem Boden erfolgt durch schwarze, Ø 60 H60 mm große Kunststofffüße mit Schutzfilz.

Structure : monocoque, en multiplis avec suspension assurée par des sangles élastiques à haute teneur en caoutchouc. Préparation de la structure en polyuréthane expansé à haute résilience, constitué de nombreuses couches thermosensibles à densité différenciée.

Toute la structure est recouverte d'un édredon en fibre thermoliée respirante, doublé de toile de coton blanc anallergique qui en augmente la souplesse.

Coussins : le rembourrage du coussin d'assise en plumes d'oie à secteurs à haute épaisseur confère une grande souplesse au coussin. Élément en polyuréthane expansé à haute résilience, revêtu dans la partie supérieure avec un matériau polyuréthane "thermosensible". Les coussins du dossier sont entièrement rembourrés en plumes d'oie à secteurs.

Le côté intérieur des accoudoirs est matelassé en plumes d'oie à secteurs pour plus de douceur et de moelleux, ce qui les transforme en de véritables coussins.

La confection du coussin d'assise et celle de la doublure sont réalisées avec un léger matelassage moderne.

Déhoussage : revêtement entièrement déhoussable en tissu après démontage de la base périmétrale porteuse en desserrant les boutons moletés. Revêtement en cuir fixe pour la structure, coussins dossier et d'assise déhoussables uniquement.

Base : châssis en métal section rectangulaire 45x20 mm avec finition couleur Étain finition brillante anti-traces.

Piètement en plastique de couleur Noire Ø 60 H60 mm, avec feutre de protection.
