

BÉZIER

MARCIO KOGAN / STUDIO MK27 DESIGN

Far beyond the concept of a traditional sofa, the Bézier system is defined by a series of organic, infinitely combinable seating elements, allowing for endlessly adaptable configurations.

Designed by Studio MK27, whose founder Marcio Kogan has made the precision of his lines into a distinctive hallmark, Bézier explores and reinterprets a novel and striking compositional language. It is developed through irregular volumes and fluid forms that shape and embrace both the space and those who inhabit it.

The arrangement depicted is just one example of the many different compositions possible with our seating systems.

We suggest that you contact the nearest Minotti dealer to explore the options most suited to your needs and select the upholstery of your choice from the exclusive Minotti collection.
