

# BÉZIER CORD OUTDOOR

MARCIO KOGAN / STUDIO MK27 DESIGN

Characterized by enveloping volumes, the Bézier Cord Outdoor seating system designs new open-air landscapes through original and unexpected configurations.

Designed by Studio MK27 and inspired by the geometry of the parametric curve of the mathematician Bézier, which is the matrix of its indoor counterpart, this system explores a unique, powerful compositional language: characterised by irregular volumes, dynamic aesthetic and sinuous lines that embrace the space, the elements can be used together in various combinations or as standalone pieces, establishing an intimate and harmonious dialogue with those who experience them.

The arrangement depicted is just one example of the many different compositions possible with our seating systems.

We suggest that you contact the nearest Minotti dealer to explore the options most suited to your needs and select the upholstery of your choice from the exclusive Minotti collection.
