

Struttura: cassa, braccioli, schienali e pannelli posteriori autoportanti in legno multistrato. Preparazione della struttura in poliuretano espanso ad alta resilienza composta da numerosi strati di quote differenziate (esente da CFC). La struttura è rivestita successivamente con fibra termolegata traspirante ad alto spessore, accoppiata con tela di cotone bianca anallergica che conferisce morbidezza. Un inserto lineare di silicone integrato nella parte centrale dello schienale e nel cuscino schienale garantisce stabilità tessile al rivestimento oltre che ad avere una funzione decorativa (in caso di rivestimento con tessuto King, l'inserto in silicone verrà sostituito con un ricamo). I pannelli posteriori autoportanti sono rivestiti in pelle o tessuto e rifiniti da una cucitura verticale che corre lungo l'altezza del pannello e da una doppia cucitura perimetrale. I pannelli posteriori autoportanti sono fissati alla struttura attraverso un sistema di innesto e sgancio rapido.

Cuscinatura: imbottitura cuscino schienale in piuma d'oca canalizzata ad alto spessore, sottoposta a regolare trattamento di bonifica igienico-sanitaria come stabilito dal Regolamento CE 1069/2009 (certificata Assopiuma, Etichetta Oro), successivamente rivestito da fibra termolegata traspirante accoppiata con tela di cotone bianca anallergica con un inserto centrale in poliuretano espanso. Il cuscino schienale 60x50 cm ha un inserto in poliuretano espanso a quote differenziate.

Sfoderabilità: completamente sfoderabile in tutte le versioni (tessuto o pelle).

Base: cornice perimetrale in estruso di alluminio con elementi di giunzione in alluminio pressofuso nella finitura spazzolato lucido. Appoggio a terra tramite piedini regolabili in polipropilene comprensivi di scivolanti in SEBS di colore nero. I pouf 50x50xh43/h49 cm e 102x102 cm sono disponibili anche con ruote (struttura in nylon e gomma in poliuretano termoplastico).

Per permettere la sfoderabilità, gli schienali e i braccioli sono facilmente sfilabili dalle loro sedi agendo sulle apposite manopole poste sotto la struttura portante. I pannelli sono removibili tramite un sistema di innesto e sgancio rapido. Questa operazione, in casi necessari, può essere eseguita anche per agevolare il trasporto e la consegna.

Structure: base, armrests, backrests and self-supporting back panels in plywood. The structure is made of numerous layers of variable-density, high-resilience polyurethane foam (CFC-free). The structure is then covered in breathable heat-bonded, high-loft fibre laminated to hypoallergenic white cotton fabric for extra softness. A linear silicone insert integrated into the centre of the backrest and the backrest cushion ensures upholstery fabric stability, while also serving a decorative purpose (in the case of upholstery in King fabric, the silicone insert will be replaced with embroidery). The self-supporting back panels are upholstered in leather or in fabric and finished with a vertical seam that runs along the height of the panel and a double perimeter seam. The self-supporting back panels are attached to the structure through a quick-set-and-release coupling system.

Cushions: seat and backrest cushion padding in high-loft channelled goose down subject to routine sanitisation as specified in EC Regulation No. 1069/2009 (Assopiuma Gold Label certified), then encased in breathable heat-bonded fibre laminated to hypoallergenic white cotton fabric, with core insert in polyurethane foam. The backrest cushion has a 60x50 cm insert in variable-density polyurethane foam.

Covers: upholstery is completely removable in all versions (fabric and leather).

Base: extruded aluminium perimeter frame with cast aluminium joint fittings, with polished brushed finish. Rests on adjustable polypropylene feet with black SEBS glides. The 50x50xh43/h49 cm and 102x102 cm ottomans are also available with casters (structure in nylon and thermoplastic polyurethane rubber).

To remove the upholstery, the backrests and armrests can easily be lifted out by releasing the levers located underneath the support structure. The panels are removable through a quick-set-and-release coupling system. If needed, this operation can also be used to facilitate shipping and delivery.

Struktur: Korpus, Armlehnen, Rückenlehnen und selbsttragende hintere Paneele aus Sperrholz. Polsterung der Struktur aus hochwiderstandsfähigem PU-Schaum (FCKW-frei), der aus zahlreichen Schichten mit differenzierter Dichte besteht. Die Struktur wird anschließend mit atmungsaktiver, thermisch gebundener, voluminöser Faser kaschiert, die mit hypoallergenem weißem Baumwollstoff verbunden ist, um zusätzliche Weichheit zu gewährleisten. Ein linearer Silikonkern, der in den zentralen Teil der Rückenlehne und des Rückenkissens integriert ist, garantiert nicht nur für die textile Stabilität des Bezugs, sondern hat auch eine dekorative Funktion (bei einem Bezug aus Stoff King wird der Silikonkern durch eine Stickerei ersetzt). Die selbsttragenden hinteren Paneele sind mit Leder oder Stoff bezogen und mit einer vertikalen Naht, die sich über die gesamte Höhe des Paneels erstreckt, und einer doppelten umlaufenden Naht. Die selbsttragenden hinteren Paneele sind mit einer Schnellkupplung am Gestell befestigt.

Kissen: Rückenkissen mit gesteppter Daunenfüllung mit Kammern und Innenstegen mit hoher Stärke für weiche Kissen und mehr Sitzkomfort, die nach Vorgabe der Verordnung (EU) 1069/2009 (zertifiziert Assopiuma, "Goldenes Etikett") ordnungsgemäß sterilisiert worden ist, mit zusätzlicher Polsterung aus atmungsaktiver, thermobondierter Faser mit Bezug aus weißer, antiallergischer Baumwolle mit zentralem Kern aus PU-Schaum. Das Rückenkissen 60x50 cm verfügt über einen Kern aus PU-Schaum mit differenzierter Dichte.

Abziehbarkeit: Komplette abziehbar in allen Versionen (Stoff oder Leder).

Basis: Umlaufender Rahmen aus extrudiertem Aluminium mit Verbindungselementen aus Aluminiumpressteil mit glänzender gebürsteter Oberfläche. Bodenaufleger mit höhenverstellbaren Füßen aus Polypropylen und Gleitern aus SEBS in der Farbe Schwarz. Die Polsterhocker 50x50xH43/H49 cm und 102x102 cm sind auch mit Rollen erhältlich (Struktur aus Nylon und thermoplastischem Polyurethan-Gummi).

Für das Abziehen der Bezüge können die Rückenlehnen und die Armlehnen mit Hilfe der speziellen Sterngriffe unter dem tragenden Gestell leicht aus ihren Sitzen gezogen werden. Die Paneele können mit einer Schnellkupplung abgenommen werden. Bei Bedarf kann diese Möglichkeit auch genutzt werden, um den Transport und die Lieferung des Sofas zu erleichtern.

Structure : caisson, accoudoirs, dossiers et panneaux arrière autoportants en bois multiplis. Rembourrage de la structure en mousse polyuréthane haute résilience composée de plusieurs couches à densités différenciées (sans CFC). La structure est ensuite recouverte d'une couche de fibre thermoliée respirante de forte épaisseur, contrecollée sur une toile de coton blanche hypoallergénique qui lui confère de la souplesse. Un insert linéaire en silicone intégré au centre du dossier et du coussin de dossier garantit la stabilité du revêtement textile tout en apportant une touche décorative (en cas de revêtement en tissu King, l'insert en silicone sera remplacé par une broderie). Les panneaux arrière autoportants sont recouverts de cuir ou tissu et rehaussés d'une couture verticale qui s'étend sur toute la hauteur du panneau et d'une double couture périmétrique. Les panneaux arrière autoportants sont fixés à la structure grâce à un système d'enclenchement et de décrochage rapide.

Coussins : rembourrage du coussin de dossier en plume d'oie cloisonnée de forte épaisseur, soumise à un traitement d'assainissement conformément au Règlement CE 1069/2009 (certifié Assopiuma, Label Or), recouvert ensuite d'un tissu multicouche en fibre thermoliée respirante et toile de coton blanche hypoallergénique avec un insert central en mousse polyuréthane. Le coussin de dossier 60 x 50 cm comporte un insert en mousse polyuréthane à densités différenciées.

Déhoussage : entièrement déhoussable dans toutes les versions (tissu ou cuir).

Piètement : cadre périmétral en aluminium extrudé avec éléments de jonction en fonte d'aluminium finition brossé brillant. Repose sur des embouts de pieds réglables en polypropylène équipés de patins glisseurs en SEBS noir. Les poufs 50x 50xH43/H49 cm et 102x102 cm sont également disponibles avec des roulettes (structure en nylon et bandage en polyuréthane thermoplastique).

Pour permettre le déhoussage, les dossiers et les accoudoirs s'enlèvent facilement de leur logement en tournant les poignées prévues à cet effet situées sous la structure porteuse. Les panneaux sont amovibles grâce à un système d'enclenchement et de décrochage rapide. Si nécessaire, cette opération peut également être effectuée pour faciliter le transport et la livraison.

OPZIONE ALTEZZA PIEDINI / KIT RUOTE

A richiesta sono disponibili, senza sovrapprezzo, piedini o kit ruote (ove previsto) H 9,5 cm ovvero più alti di 2 cm rispetto all'altezza standard. Questa opzione deve essere specificata all'atto dell'ordine. Qualora non venisse indicato, verranno montati piedini o kit ruote con altezza standard (7,5 cm).
