

JULY 2018

## "2018 COLLECTION NEWS" CATALOGUE

The 2018 Collection, entirely coordinated by Architect Rodolfo Dordoni, was given rave reviews by the many visitors from around the world during the Salone del Mobile in Milan.

In this very special year - which coincides with the celebration of the company's 70th anniversary - we launched a multi-faceted collection, born from a project open to contributors with different design philosophies, that embraces an exciting creative multicultural exchange, thanks to surprising new interpretations by distinguished design and architectural professionals, like **Nendo**, **Marcio Kogan**, **Christophe Delcourt** and **Dordoni** himself.

The "2018 Collection news" catalogue is divided into three practical volumes for quick and easy consultation: "**2018 Indoor Collection**", "**2018 Outdoor Collection**" and "**2018 Hospitality**".

The slipcase holds the three volumes and the "**2018 Collection**" **price list**, complete with all of the most recent additions and updates. It thus replaces any price lists already in your possession.

Our sales office is available and ready to assist you with any questions you might have.
