

AUGUST 2018

## "2018 COLLECTION" CONSUMER CATALOGUE

Starting in September, the new consumer catalogue dedicated to the "**2018 Collection**" will be available at Minotti flagship stores and from authorized dealers.

The catalogue contains a magnificent photographic portrayal of the most unique and captivating settings that provided the backdrop for the innovations introduced last April at the Salone del Mobile.Milano.

It offers a deeply-engaging visual narrative of the Minotti universe that aptly describes the unique features of the new collection – a dynamic, multicultural project, coordinated entirely by **Rodolfo Dordoni**, that brings together the projects of four international designers like **Nendo**, **Marcio Kogan**, **Christophe Delcourt** and **Dordoni** himself.

Extensive space in the catalogue is dedicated to the new **Alexander** and **Granville** seating systems, the decor solutions from the **Tape** collection and to the timeless **Albert&Ile** special edition, classic-contemporary furnishings that exquisitely exemplify the Minotti brand.

The new Outdoor collection, featured in the final section of the catalogue, also conveys the same spirit. One of the featured products is the modular **Quadrado** system, with almost airy visual lightness and graphic good looks. A gracefully-balanced project, it lends personality to open-air spaces, offering supreme comfort and flexibility of use, effortlessly maintaining the continuity between indoors and out.
