

SETTEMBRE 2019 CONSUMER CATALOGUE OF THE 2019 COLLECTION

In order to help illustrate the **2019 Collection**, the new consumer catalogue is now available at the Minotti flagship stores and authorised retailers.

In addition to highlighting the uniqueness of the new collection, the catalogue offers a rich selection of photographs depicting the indoor and outdoor settings that framed the new designs presented last April during the Salone del Mobile.Milano fair.

An engaging story that describes the distinctive character of the new products, the stars of the contributions made to the collection by four international designers: **GamFratesi**, **Nendo**, **Marcio Kogan / studio mk27** and **Christophe Delcourt**. They all operate under the art direction of **Rodolfo Dordoni**, also involved as a designer, within a dynamic, highly distinctive architectural project that shows off Minotti's ability to produce exquisite designs.

The catalogue dedicates ample space to the three new seating systems - *Daniels*, designed by *Christophe Delcourt*, *Lawson* and *West* by *Rodolfo Dordoni* - the *Angie* and *Shelley* armchairs by *GamFratesi*, the *Wedge* table by *Nendo* and the wide range of small furniture and accessories. A project coordinated with a view to highlighting the elegance and timeless design of its components, the perfect expression of the Minotti identity and vision.

The section at the end of the catalogue also presents a series of outdoor scenarios animated by the 2019 Minotti proposals. These include, among others, the chairs and furnishing accessories of the *Tape Cord Outdoor* collection by *Nendo* and those of the *Quadrado* collection, designed by *Marcio Kogan / studio mk27*.

A harmonious project combining elegance and personality to create solutions for both large outdoor environments and smaller urban spaces.
