DICEMBRE 2019 JAKARTA, THE 2019 COLLECTION GOES ON STAGE

On 5th December 2019, Minotti Jakarta - opened in 2014 in partnership with Moie - staged an event to celebrate the presentation of the 2019 Collection, attended by architects, designers, property developers and journalists.

The decor of the space, with its contemporary vibe, enhances an elegant area characterised by an interesting combination of textures and colours - wooden boiserie and panelling covered in marble alternate with retro walls painted grey - designed to recreate sophisticated atmospheres that reflect the brand lifestyle.

A unique opportunity for guests to discover the main Indoor and Outdoor solutions of the 2019 Collection.

Guests were welcomed into an outdoor area near the entrance animated by the **Quadrado** systems and the **Tape Cord** collection, designed by Marcio Kogan/ studio mk27 and nendo, and a more intimate conversation area, furnished with the **Lawson** seats by Rodolfo Dordoni. Various configurations of the **West**, **Lawson** and **Daniels** seating systems - designed by Rodolfo Dordoni and Christophe Delcourt - were then displayed one after the other, accompanied by the **Angie**, **Shelley**, **Delaunay Quilt** and Lawson armchairs, and complemented by many pieces of small furniture and accessories. The centre of the store proudly sported a distinctive dining area containing the **Wedge dining** table and **Angie** seats, set beside an elegant lounge space featuring the **Lawson** sofas and armchairs.
