

MARCH 2021

THE 2020 COLLECTION GOES TO JAKARTA

The **2020 Collection** has arrived in Jakarta, where it is the focus of the **Minotti Jakarta** by **Moie** display concept, with a wide selection of indoor and outdoor furniture.

The space is characterised by a fascinating architecture and an intriguing combination of textures and colours, where elegant wood panelling and exquisite wall coverings clad in cappuccino marble are set off by grey-painted walls, creating a sophisticated atmosphere that reflects the brand's design versatility and forms the backdrop to the most significant designs of the 2020 Collection.

Visitors are greeted by an outdoor area adjacent to the entrance – featuring the **Sunray** seating system by Rodolfo Dordoni as well as the **Daiki Outdoor** and **Fynn Outdoor** armchairs, by Marcio Kogan / studio mk27 and GamFratesi respectively – and, opposite, a more intimate conversation area furnished with **Torii** seats by Nendo. The Torii range is also the focus of the large island at the centre of the store, around which the various settings are arranged in a fluid sequence of highly appealing living and dining solutions, including the **Connery** and **Blazer** seating systems by Rodolfo Dordoni.

This truly multifaceted proposal perfectly expresses the international identity of the Minotti project, translating the well-balanced combination of different design cultures, in total harmony with the taste and lifestyle of the Indonesian public.
