Minotti

APRIL 2021

THE 2020 COLLECTION GOES TO BANGKOK

The **2020 Collection** has arrived in Bangkok, where it is the protagonist of the **Minotti Bangkok by Chanintr** display concept, with a vast selection of indoor furniture, alongside a number of bestsellers and distinctive pieces from the latest Minotti collections.

A showroom space flooded with light, thanks to the three huge floor-to-ceiling windows, and enhanced by a dramatic black and white contrast. Elegant wood panelling in Liquorice-stained larch, and ceilings and walls painted in charcoal grey playfully interact with double staggered sections in white plaster that enrich the majestic fireplace and staircase, creating an optical illusion of suspension.

Dramatic settings with a graphic look that contrast with the sinuous shapes of the furniture and their delicate colour nuances, such as the ecru and warm greys that complement the **Connery** and **Blazer** seating systems designed by Rodolfo Dordoni. Colours that intensify gradually as one moves through the space, culminating in unexpected touches of the colour corten, added to warm up the living room where the **Torii** family by Nendo is hosted.

A carefully designed presentation aiming to create a harmonious, creative dialogue with the architectural context, and capable of transferring the distinctive mood of the 2020 Collection, as well as the authentic essence of Minotti.
