

JUNE 2021

## SPOTLIGHT ON AUSTRALIA: MINOTTI SYDNEY AND MINOTTI MELBOURNE

The result of the long-standing collaboration between the Minotti and Engelen families, the latter having been at the helm of **Dedece** for over 40 years, the **Minotti Sydney** and **Minotti Melbourne** flagship stores host a vast selection of indoor and outdoor furniture from the current collection within an elegant modern architecture.

Large floor-to-ceiling windows, concrete floors and walls, large columns and exposed beams painted white characterise **Minotti Sydney**, bringing to life an environment with an ultra-bright industrial feel, enhanced by discreet yet striking decorative details.

Pairs of panels in white plaster and black larch divide the entire volume of the store, dialoguing to create an interesting interplay of overlaps and perspectives that makes the showroom layout dynamic: a trail of discovery featuring the **Connery** and **Blazer** seating systems by Rodolfo Dordoni and the other furnishings in the 2020 Collection. The extremely rational division of the space is further enhanced by the presence of a sophisticated, two-sided fireplace in the centre, positioned lengthways.

Refined settings with an industrial vibe also characterise **Minotti Melbourne**. Located near the well-known Melbourne Central Business District, the flagship store features very high ceilings and windows of no less than 5 metres. A large open space spanning two levels, connected by a stunning spiral staircase in metal, whose curves contrast with the clean design of the wooden fireplace decorated with an original graphic "tatami" pattern.

Grey concrete floors and wood panelling in mink-coloured larch, alternated with slats in black brushed oak, breathe life into an elegant atmosphere where everything combines to offer an exciting presentation of the main solutions offered by the 2020 Collection. These include the **Torii** and **Sunray** seating systems, respectively by Nendo and Rodolfo Dordoni, the latter accompanied by the **Fynn Outdoor** seats by GamFratesi, enhanced by a bright green fabric that recalls the shades of the surrounding landscape.

True "oases of design" in two of the most dynamic metropolises in the world, for a unique, personalised experience of the brand's inimitable lifestyle.
