

JANUARY 2022

BRASILIA BED WINS THE WALLPAPER* DESIGN AWARDS 2022

Brasilia Bed wins the **Wallpaper*** Design Awards 2022 in the "Best Quiet Space" category; designed by **Marcio Kogan / studio mk27**, **Brasilia Bed** is characterized by a strong personality offering a new take on the Mid-Century Contemporary style that makes the **Brasilia** collection of seats stand out.

Suspended weightless above the ground, **Brasilia Bed** features an impressive accessorized headboard in dark Santos palisander that embraces the upholstered part of the bed and flaunts a very precise, contemporary, minimal style with its roots in Brazilian modernism.

Minotti has successfully incorporated the style of **Kogan**, blending it seamlessly into the overall **2021 Collection** design concept. A design that looks to the future, is made to stand the test of time and to become a new classic.

The prestigious award presented by international magazine **Wallpaper*** celebrates the best of last year's design and underlines the value of the collaboration between **Minotti** and **Marcio Kogan**, launched in 2017, which has gone from strength to strength ever since.
