

JULY 2022

NEWS FROM MINOTTI BANGKOK

A new exhibition concept for **Minotti Bangkok by Chanintr**, with a renewed presentation of furnishing pieces, including best sellers and distinctive pieces from the Minotti collection, is expressed within a space in which Liquorice-stained larch wood panelling and charcoal-coloured walls play around with staggered white plaster partitions, creating an optical illusion of suspension.

The large floor-to-ceiling display spaces host stunning settings, with protagonists that are some of the most distinctive pieces of the Minotti collection: the shades of grey that characterise the coverings of the **Roger** and **Connery** systems and the **Belt** seats by **Rodolfo Dordoni**, but also the warm wood tones of the **Brasilia** seating system by **Marcio Kogan / studio mk27**, also used in the master bedroom with the **Brasilia Bed** in the foreground.

A sophisticated interior design project by **Minotti Studio**, conceived to fit harmoniously into the architectural context of the store: an unmissable design destination for the Thai city.
