

Minotti

SEPTEMBER 2022

BOOK SALONE 2022

Now in its 23rd edition, the **Book Salone 2022** traces the evolution of the Minotti design vision and the **2022 Collection**, launched last June at the **Salone del Mobile.Milano** and coordinated by architect **Rodolfo Dordoni** with **Minotti Studio**.

In fact, the Collection was showcased inside a real 3,200 sqm architecture on two levels: the atmospheres were animated by the furnishing pieces of the 2022 Collection and, in addition, they presented the most representative pieces from the most recent collections, underlining once again how the coherence of Minotti's style is able to create timeless environments.

In addition to showcasing the unique features of the new collection in the context of the Salone del Mobile, the Book Salone 2022 also accurately conveys the international aesthetic style of Minotti. Not forgetting the brand's ability to blow the design world away - with its dynamic, creative yet practical approach - while remaining faithful to its history.
