

APRIL 2023 NEWS FROM LOS ANGELES

The modern architecture of Minotti Los Angeles, the first flagship store opened in the USA in 2004, welcomes the **Horizonte** seating system by **Marcio Kogan / studio mk27**: a rigorous, yet light line that takes shape on a suspended base and creates a refined atmosphere together with the **Yoko** armchairs and **Sendai** sofa, both designed by **Inoda+Sveje**.

The common thread linking the oriental influences and Nordic rigour of the designer duo Kyoko Inoda and Nils Sveje also runs through the adjacent area, where the **Lars** sofa welcomes visitors, accompanied by the compact, soft nature of the **Goodman** seating system by **Rodolfo Dordoni**.

Transversal in their expressive forms, but always united by the sophisticated, elegant Minotti's style, the furnishing pieces of the 2022 Collection blend effortlessly into the Californian showroom alongside the brand's timeless best-sellers, creating unexpected combinations.
