## 2023 COLLECTION JUST LANDED IN CYPRUS

Located at the crossroads between East and West, the **Minotti Cyprus by Askotis Retail Ltd** flagship store embraces the international style of the furnishing pieces in the **2023 Collection**.

In the heart of Nicosia, where the charm of history blends with contemporary architecture, the interior design project of the showroom by **Minotti Studio** comes to life, enriched with touches of colour characteristic of the location and a palette inspired by the shades of the sea.

The layout, framed by tobacco-stained flamed oak panelling and punctuated by lacquered panels, reveals itself to be an engaging design experience, thus resulting from the harmonious alternation of the living and dining areas that characterise the open-plan space.

The brand's latest proposals include the **Dylan** modular seating system designed by Rodolfo Dordoni, which furnishes a living area together with the **Raphael** armchair by GamFratesi, covered in an elegant Prince of Wales fabric. Another area hosts the gently rounded volumes of the **Torii Bold** family of seats designed by Nendo, creating an informal, original and modern lounge environment.

The spaces of **Minotti Cyprus** are also animated by a careful selection of best-sellers, including the **Roger** and **Horizonte** seating systems, respectively by Rodolfo Dordoni and Marcio Kogan / studio mk27, which complement the cosmopolitan spirit of the latest furnishing pieces. A fusion that calls to mind the fascinating mix of different design cultures, reflecting the island's effervescent creative scene.
