

JULY 2026

CONSUMER CATALOGUE: HOME STORIES

Home Stories is the new photographic volume conceived for the end consumer, presenting the **2026 Collection** through an emotional, cinematic perspective. Curated by Valerie van der Werff and captured through the lens of Jouke Bos, the project introduces a distinctive aesthetic language for Minotti, in which people, gestures and fragments of everyday life transform interiors into lived experiences, offering an authentic and contemporary vision of living.

The publication opens up a new narrative dimension and expands the brand's universe, making it richer, more engaging and more culturally multifaceted.
