

OCTOBER 2026

CORPORATE | COMPANY SHOWROOM

The **Company Showroom** welcome the new indoor and outdoor designs of the **2026 Collection** alongside the brand's best sellers. Seating systems, armchairs, bookcases, beds, tables and furnishing accessories interact with the surrounding architecture, creating interiors defined by sophisticated combinations of materials and colours.

Among the latest proposals, the seating systems **Orion** by Giampiero Tagliaferri, **Ruffle** by GamFratesi and **Softcase** by Hannes Peer unfold across a sequence of settings dedicated to different areas of the home. Sculptural silhouettes and enveloping forms alternate with clean, understated lines, while a palette of warm tones brings out the richness of the textures, finishes and details.

The **Company Showroom** offers a comprehensive view of the collection, highlighting its versatility and its ability to interpret space through a wide range of solutions. A series of compositions provides fresh design inspiration, expressing a refined and contemporary sense of elegance.
