

OCTOBER 2026

CORPORATE | SUPERSET

Adjacent to the Company Showroom, the **SuperSet** also showcases the **2026 Collection** together with a selection of designs that express the brand's stylistic language. Renewed each year, the space echoes the mood and atmosphere of the **Minotti Pavilion** at the Salone del Mobile.Milano.

Constantly evolving, the **SuperSet** is initially conceived as the photographic set for the new collection before being transformed into an exhibition space with a fresh character. Inspired by the concept presented at the Salone, it extends the story beyond the fair through a series of living and dining settings.

For 2026, elegant Dark Brown palisander surfaces and contemporary Venetian blinds create a warm, sophisticated ambience, where new designs and iconic pieces come together in ever-changing compositions with an instantly recognisable aesthetic.
