

JANUARY 2016

DEDICATED "WHITE" CATALOGUE

In the two years since its launch, the White seating system has quickly become one of the company's best-sellers. The new White monographic catalog highlights the unique features of this innovative system and all the finishes that are now available. The saddle hide and glossy lacquer finishes are now come in some new colors and the tray tops now also come in five kinds of wood veneer which further broaden its combination options with other products in the collection. The sumptuous photo gallery offers many original shots, as well as some photos of this seating system from projects produced during the last few years.

To easily and efficiently acquaint you with all the available finishes a special sample book called "The White Tray Top finishes" is a special sample book also available, that will easily and efficiently acquaint you with all the finishes.
