AN INSPIRATIONAL JOURNEY

"An inspirational Journey" is a collection of the most remarkable projects developed over the last few years, conceived to demonstrate the incredible versatility of Minotti products and how they fit seamlessly into many very different kinds of environments.

The "Homes" volume is dedicated to residential projects, while in the "Hospitality" book you will find a selection of the most fascinating contract projects. We hope that "An inspirational Journey" will be an enduring source of inspiration when designing your own projects and we invite you to come back often to the "Projects" section of our website, which is constantly updated with the most interesting new projects.
