"MINOTTI LIFESCAPE" CONSUMER CATALOGUE

The consumer catalog dedicated to the Lifescape in/outdoor collection is now available from authorized dealers.

The catalog contains a comprehensive photo gallery of all the products in the collection, including the Rivera series, debuted at the Salone del Mobile furniture show in Milan. The products are arranged in strikingly evocative settings designed as a series of projects that serve as a stimulus for contemporary decor ideas.

Through the Lifescape collection, Minotti offers a unique concept for exterior decor, one in which the timeless elegance, intimacy and comfort that are part of the collection's DNA, also extend the same sophisticated style to the outdoors – whether in a garden or on a terrace.
